Information Disclosure Statement

Commissioner for Patents
Washington, District of Columbia 20231

Sir:

Attached is a completed Form PTO/SB/08A and copies of the pertinent parts of the references cited thereon. In addition this statement is to disclose prior knowledge of a substitute device for a knot in a necktie. There is, to my knowledge, no published article describing the article. I observed the device over 10 years ago and at the time asked the wearer Jeff Jones, where it came from. He informed me that his brother Steve Jones of Woodland CA. made it. I feel that the device does not conflict with this patent application because the prior art does not closely resemble a necktie knot. It also does not offer the combination of aperture diameter as well as aperture length per my Claim 1(c) to provide the frictional resistance my invention offers. Finally, the prior art is a ceramic product that is quite fragile.

Very respectfully,

 12/03/03
